2. What is the Statistics section?

The Statistics section includes up-to-date information on CR reporting trends.

The screenshot shows the CorporateRegister.com website's Statistics section. At the top, there is a navigation menu with links for Home, Reports, ReportingPartners, News, CR Nation, and Publications. Below the menu, the user is logged in as 'mkalik (PRO)' with options for Favourites, My Account, and Sign Out. The date is January 12, 2012. A summary line states: 'We currently feature 37,958 reports from 8,664 different companies across 159 countries.' Below this, there are tabs for 'Overall', 'Country', 'Turnover', 'GRI', and 'Financial'. The main content area displays a grid of 12 charts with the following titles: 'Global Report Output by Year', 'Global report output by region', 'Reports by region in 2010', 'Reports by region per year', 'Top 20 Sectors by Report Output', 'Top 20 Countries by Report Output', 'Global Report Output by Type', 'First time reports per year', and three unlabeled bar charts at the bottom. A large black arrow points from the 'Global Report Output by Year' chart in the grid to a larger, detailed version of the same chart below.

You can access graphs on specific trends, such as global output of CR reports per year.

3. What is the PDF Search Tool?

The PDF Search Tool allows you to identify keyword occurrences across all our PDFs. Research which might normally take weeks can be completed in minutes with the PDF Search.
